EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

Regular updates will be posted as they are available.

Submitted values are:

Your Name: Mr. Anthony J Trimboli Howard Beach, NYC

Email Address: [Personal Email/Ex. 6]

Comments: Wow, did US EPA respond to this Yahoo article this afternoon about a river in Colorado there where a mine accidentally dumped something into the river there and the entire river turned orange? Wow, that is such an interesting photo to look at there where the mine accidentally dumped something into the river there and the entire river turned orange. You should see how the pollution turned the river orange there.
